1. REPORTING ENTITY

Perpetual Energy Inc. ("Perpetual" or the "Company") is a Canadian corporation engaged in the exploration, development and marketing of oil and natural gas based energy in Alberta, Canada. The Company operates a diversified asset portfolio that includes liquids-rich natural gas, shallow natural gas and conventional heavy oil producing properties, as well as undeveloped bitumen resource properties.

The address of the Company's registered office is 3200, 605 – 5 Avenue S.W., Calgary, Alberta, T2P 3H5.

The condensed interim consolidated financial statements of the Company as at and for the three and six months ended June 30, 2018 are comprised of the accounts of Perpetual Energy Inc. and its wholly owned subsidiaries: Perpetual Operating Corp. and Perpetual Operating Trust, which are incorporated in Canada.

2. BASIS OF PREPARATION

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and do not include all of the information required for full annual financial statements. These condensed interim consolidated financial statements should be read in conjunction with the Company's consolidated financial statements as at and for the year ended December 31, 2017 which were prepared in conformity with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

Except for the changes described below, the accounting policies, basis of measurement, critical accounting judgements and significant estimates used to prepare the annual consolidated financial statements as at and for the year ended December 31, 2017 have been applied in the preparation of these condensed interim consolidated financial statements.

These condensed interim consolidated financial statements of the Corporation were approved and authorized for issue by the Board of Directors on August 2, 2018.

a) Accounting pronouncements adopted

IFRS 9 "Financial Instruments"

Effective January 1, 2018, the Company adopted IFRS 9, "Financial Instruments", which replaced IAS 39, "Financial Instruments: Recognition and Measurement". The Company applied the new standard retrospectively and, in accordance with the transitional provisions, comparative figures have not been restated. The adoption of IFRS 9 did not have a material impact on the Company's condensed interim consolidated financial statements.

IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The previous IAS 39 categories of held to maturity, loans and receivables, and available for sale have been eliminated. The classification of financial assets under IFRS 9 is generally based on the contractual cash flow characteristics and the Company's business model for managing the financial asset. Additionally, embedded derivatives are not separated if the host contract is a financial asset within the scope of IFRS 9. Instead, the entire hybrid contract is assessed for classification and measurement.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as FVTPL:

- i) The asset is held with the objective to collect contractual cash flows; and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet condition (ii) above that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets is subsequently measured at FVOCI. All other financial assets are subsequently measured at their fair values with changes in fair value recognized through profit and loss.

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' ("ECL") model. The new impairment model applies to financial assets measured at amortized cost, contract assets, and debt investments measured at FVOCI. Under IFRS 9, credit losses will be recognized earlier than under IAS 39.

The ECL model applies to the Company's receivables. The average expected credit loss on the Company's trade accounts receivable was not significant as at June 30, 2018.

On January 1, 2018, the Company:

- Identified the business model used to manage its financial assets and classified its financial instruments into the appropriate IFRS 9 category; and
- Applied the ECL model to financial assets measured at amortized cost.

The classification and measurement of financial instruments under IFRS 9 did not result in any adjustment to the Company's opening retained earnings as at January 1, 2018. In addition, the application of the ECL model to financial assets classified as measured at amortized cost did not result in any adjustment on transition.

The following table shows the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 as at January 1, 2018 for each class of the Company's financial assets and financial liabilities. The Company has no contract assets or debt investments measured at FVOCI.

	Measurement Category	
Financial Instrument	**IAS 39**	**IFRS 9**
Accounts receivable	Loans and receivables at amortized cost	Amortized cost
TOU share investment	Financial assets at FVTPL	FVTPL
Accounts payable and accrued liabilities	Financial liabilities at amortized cost	Amortized cost
TOU share margin loan	Financial liabilities at amortized cost	Amortized cost
Revolving bank debt	Financial liabilities at amortized cost	Amortized cost
Term loan	Financial liabilities at amortized cost	Amortized cost
Senior notes	Financial liabilities at amortized cost	Amortized cost
Gas over bitumen royalty financing	Financial liabilities at FVTPL	FVTPL

In addition, IFRS 9 provides a hedge accounting model that is more in line with risk management activities. The Company does not currently apply hedge accounting to its derivative contracts nor does it intend to apply hedge accounting under IFRS 9 and as such, derivatives will continue to be FVTPL. In addition, the Company will continue to account for its forward physical delivery fixed-price sales contracts as derivative financial instruments.

IFRS 15 "Revenue from Contracts with Customers"

The Company adopted IFRS 15 "Revenue from Contracts with Customers" with a date of initial application of January 1, 2018 as detailed in Note 14, using the cumulative effect method. Under this method, prior years financial statements have not been restated and the cumulative effect on net loss of the application of IFRS 15 to revenue contracts in progress at January 1, 2018 is nil. The Company's management reviewed its revenue streams and major contracts with customers using the IFRS 15 five step model and there were no material changes to net loss or timing of oil and natural gas revenue recognized.

Under IFRS 15, revenue from the sale of commodities is calculated by reference to consideration specified in contracts with customers and recognized when control of the product is transferred to the buyer. The nature of each of its performance obligations, including roles of third parties and partners, are evaluated to determine if the Company acts as a principal, and therefore recognizes revenue on a gross basis, or as an agent, and therefore recognizes revenue on a net basis. The Company acts as the principal when it controls the product delivered before the control passes to its customer.

The Company earns revenue from its production and sale of, and royalty (and gross overriding royalty) interests in, crude oil, natural gas and natural gas liquids ("NGL's").

Revenue from the sale of crude oil, natural gas and NGLs is recognized based on the consideration specified in contracts with customers. The Company recognizes revenue when control of the product transfers to the buyer and collection is reasonably assured. This is generally at the point in time when the customer obtains legal title to the product which is when it is physically transferred to the pipelines or other transportation method agreed upon. Revenues from processing activities are recognized over time as processing occurs and are generally billed monthly. Royalty income is recognized monthly as it accrues in accordance with the terms of the royalty agreements.

When allocating the transaction price realized in contracts with multiple performance obligations, management is required to make estimates of the prices at which the Company would sell the product separately to customers. The Company does not currently have any contracts with multiple performance obligations.

See Note 14 for additional disclosures required by IFRS 15.

b) Accounting standards, interpretations and amendments to existing standards not yet effective

IFRS 16 "Leases"

IFRS 16, "Leases" was issued in January 2016 and replaces IAS 17 "Leases". Under the new standard, a single recognition and measurement model for leases is introduced which brings most leases on-balance sheet for the lessees, eliminating the distinction between operating and finance leases. A right-of-use asset and a corresponding liability will be recognized for all leases by the lessee except for short-term leases and leases of low value assets.

On adoption, non-current assets, current liabilities and non-current liabilities on the Corporation's consolidated statement of financial position will increase, as many of the Corporations' existing operating lease arrangements will meet the definition of a lease under IFRS 16 and thus be recognized in the statement of financial position as a right-of-use asset with a corresponding liability. In addition, the nature of expenses related to these arrangements will change as the current presentation of operating lease expense will be replaced with a depreciation charge for the right-of-use asset and interest expense on the lease liabilities. As well, the classification of cash flows will be impacted as the current

presentation of operating lease payments as operating cash flows will be split into financing (principal portion) and operating (interest portion) cash flows under IFRS 16. Additional disclosures will also be required under IFRS 16.

The Company plans to apply IFRS 16 initially on January 1, 2019 using the cumulative effect method whereby the cumulative impact of adopting the standard will be recognized in retained earnings as at January 1, 2019 and comparative periods will not be restated. The Company will disclose additional information throughout the latter half of 2018 on the progress of the transition and has yet to quantify the impacts of this standard.

3. TOURMALINE OIL CORP. ("TOU") SHARE INVESTMENT

	June 30, 2018		December 31, 2017	
	Shares *(thousands)*	**Amount *($thousands)***	Shares *(thousands)*	Amount *($thousands)*
Balance, beginning of period	**1,667**	**$ 37,985**	1,847	$ 66,343
Sold	**(11)**	**(278)**	(180)	(5,687)
Unrealized change in fair value	**–**	**1,210**	–	(22,671)
Balance, end of period	**1,656**	**$ 38,917**	1,667	$ 37,985

During the second quarter of 2018, the Company sold 10,700 TOU shares at $25.97 per share, for net cash proceeds of $0.3 million. Proceeds from the sale of TOU shares were used to voluntarily pay down the balance of the TOU share margin loan by $0.3 million.

At June 30, 2018, the Company held 1.66 million (December 31, 2017 – 1.67 million) TOU shares with a fair value of $38.9 million (December 31, 2017 – $38.0 million) based on a June 30, 2018 closing price of $23.49 per share (December 31, 2017 – $22.78 per share). Net loss for the six months ended June 30, 2018 included an unrealized gain of $1.2 million (2017 – $14.2 million unrealized loss) representing the change in fair value of TOU shares held during the period.

At June 30, 2018, 1.66 million TOU shares (December 31, 2017 – 1.67 million TOU shares) were pledged as security for the TOU share margin loan (note 7).

As at June 30, 2018, a $1.00 per share increase in the market price of TOU shares would increase the Company's after tax net income by $1.7 million.

4. PROPERTY, PLANT AND EQUIPMENT ("PP&E")

	Oil and Gas Properties	**Corporate Assets**	**Total**
Cost			
December 31, 2016	$ 611,046	$ 7,182	$ 618,228
Additions	71,008	79	71,087
Acquisitions	233	–	233
Change in decommissioning obligations (note 11)	5,022	–	5,022
Dispositions	(8)	–	(8)
December 31, 2017	$ 687,301	$ 7,261	$ 694,562
Additions	16,382	344	16,726
Change in decommissioning obligations (note 11)	379	–	379
Dispositions	(848)	–	(848)
June 30, 2018	**$ 703,214**	**$ 7,605**	**$ 710,819**
Accumulated depletion, depreciation and impairment losses			
December 31, 2016	$ (391,439)	$ (6,903)	$ (398,342)
Depletion and depreciation	(33,226)	(210)	(33,436)
December 31, 2017	(424,665)	(7,113)	(431,778)
Depletion and depreciation	(18,849)	(58)	(18,907)
June 30, 2018	**$ (443,514)**	**$ (7,171)**	**$ (450,685)**
Carrying amount			
December 31, 2017	$ 262,636	$ 148	$ 262,784
June 30, 2018	**$ 259,700**	**$ 434**	**$ 260,134**

At June 30, 2018, property, plant and equipment included $1.7 million (December 31, 2017 – $1.3 million) of costs currently not subject to depletion.

a) Dispositions

Proceeds (payments) on dispositions

($ thousands)	Three months ended June 30, **2018**	2017	Six months ended June 30, **2018**	2017
Proceeds from dispositions of oil and gas properties	**12,149**	–	**12,152**	436
Proceeds from retained shallow gas marketing arrangements	**–**	331	**–**	869
Payments on retained shallow gas marketing arrangements	**(4,527)**	(940)	**(5,456)**	(1,869)
Net proceeds (payments) on dispositions	**7,622**	(609)	**6,696**	(564)

Gain (loss) on dispositions

($ thousands)	Three months ended June 30, **2018**	2017	Six months ended June 30, **2018**	2017
Proceeds from dispositions of oil and gas properties	**12,149**	–	**12,152**	436
Carrying amount of PP&E and E&E disposed, net of ARO	**(11,415)**	–	**(11,415)**	(8)
Realized gain from retained shallow gas marketing arrangements	**–**	331	**–**	869
Unrealized loss on retained shallow gas marketing arrangements	**–**	(1,363)	**(874)**	(4,520)
Gain (loss) on dispositions	**734**	(1,032)	**(137)**	(3,223)

Dispositions during the six months ended June 30, 2018 included the sale of non-core royalty interests and exploration and evaluation properties for gross proceeds of $12.2 million, resulting in a net gain on oil and gas properties of $0.7 million. Included in the gain was $0.4 million in liabilities related to decommissioning obligations associated with the non-core properties that were sold.

On October 1, 2016, Perpetual sold mature, high cost shallow gas assets in east central and northeast Alberta for nominal cash consideration and the transfer of $128.0 million of associated decommissioning obligations to the purchaser (the "Shallow Gas Disposition"). The Shallow Gas Disposition also included marketing arrangements whereby the Company provided floor price protection at $2.58/GJ to the purchaser and retained price exposure to the extent average monthly AECO prices exceed $2.81/GJ on 33,611 GJ/d through to August 31, 2018. The Company entered into marketing arrangements prior to closing to fix the cost of the floor price protection through to March 31, 2018. Realized and unrealized gains and losses on these marketing arrangements are recognized as adjustments to gains/losses on dispositions and included as cash flows from investing activities on the consolidated statement of cash flows.

As at June 30, 2018, the net retained shallow gas marketing arrangements have been summarized as follows:

Term	**Volumes at AECO** ***(GJ/d)***	**Floor price** ***($/GJ)***	**Ceiling price** ***($/GJ)***	**Fair value** ***($ thousands)***
July 2018 – August 2018	33,611	–	2.81	–
July 2018 – August 2018[1]	33,611	2.58	–	(3,083)

(1) During the first quarter of 2018, Perpetual fixed the cost of the floor price protection for the remaining period from April 1, 2018 to August 31, 2018 at a cost of $7.6 million, resulting in an unrealized loss of $0.9 million (2017 – $4.5 million). At June 30, 2018, $3.1 million remains to be paid over the July to August 2018 period.

5. EXPLORATION AND EVALUATION ("E&E")

	June 30, 2018	December 31, 2017
Balance, beginning of period	**$ 46,704**	$ 47,159
Additions	**202**	1,948
Acquisitions	**610**	199
Dispositions	**(10,947)**	–
Non-cash exploration and evaluation expense	**–**	(2,602)
Balance, end of period	**$ 36,569**	$ 46,704

During the six months ended June 30, 2018, $0.3 million (2017 – $0.3 million) in costs were charged directly to E&E expense in the consolidated statements of net loss.

6. CAPITAL MANAGEMENT

Perpetual's strategy includes maintaining a strong capital base to retain investor, creditor and market confidence and to support the execution of its business plan. The Company manages its capital structure and makes adjustments to its capital spending in light of changes in economic conditions and the risk characteristics of its underlying oil and natural gas assets. The Company considers its capital structure to include share capital, senior notes, revolving bank debt, the term loan, TOU share margin loan and net working capital, with value and liquidity enhanced through the current ownership of TOU shares. In order to manage its capital structure and available liquidity, the Company may from time to time issue equity or debt securities, sell its TOU shares or other assets and adjust its capital spending to manage current and projected debt levels.

The Company will continue to regularly assess changes to its capital structure and repayment alternatives, with considerations for both short term liquidity, investment opportunities and longer term financial sustainability.

7. TOU SHARE MARGIN LOAN

At June 30, 2018, Perpetual had a $15.7 million TOU share margin loan ($15.7 million principal amount) secured by 1.66 million TOU shares that matures on July 31, 2018. Interest rates are indexed to the same applicable Banker's Acceptance margins as the Credit Facility (note 8) ranging between 1.5% and 4.0%. Perpetual may repay a portion or the entirety of the loan at any time. Any repayment is a permanent reduction to the loan. Perpetual is required to maintain a lending ratio of less than 55% based on the ratio of the TOU share margin loan compared to the market value of the pledged TOU shares (the "Lending Ratio"). If at any time the Lending Ratio exceeds 55%, Perpetual is obligated to pay down the TOU share margin loan to restore the Lending Ratio to 40%.

During the quarter ended June 30, 2018, Perpetual sold 10,700 TOU shares at $25.97 per share and used the proceeds of $0.3 million to partially repay the TOU share margin loan. As at June 30, 2018, the Lending Ratio was 40% of the closing market value of the pledged TOU shares. The TOU share margin loan is designated as a financial liability for accounting purposes and measured at amortized cost.

The effective interest rate on the TOU share margin loan as at June 30, 2018 was 4.1%. For the period ended June 30, 2018, if interest rates changed by 1%, with all other variables held constant, the impact on annual interest expense and net loss would be $0.2 million.

In addition to the Lending Ratio requirements, the TOU share margin loan is subject to customary non-financial covenants. The Company was in compliance with all TOU share margin loan covenants as at June 30, 2018.

On July 31, 2018, the TOU share margin loan was converted into a demand loan with the same lender, with similar terms and conditions. Interest rates are based on Banker's Acceptance rates plus 1.25%.

8. REVOLVING BANK DEBT

As at June 30, 2018, the Company's reserve-based revolving credit facility (the "Credit Facility") had a borrowing limit (the "Borrowing Limit") of $60 million (December 31, 2017 – $65.0 million) under which $42.8 million was drawn (December 31, 2017 – $31.6 million) and $3.7 million of letters of credit had been issued (December 31, 2017 – $3.9 million). Borrowings under the Credit Facility bear interest at its lenders' prime rate or Banker's Acceptance rates, plus applicable margins and standby fees. The applicable Banker's Acceptance margins range between 2.0% and 4.5%.

On May 7, 2018, the Borrowing Limit was reduced from $65.0 million to $60.0 million, with the next Borrowing Limit redetermination scheduled on or prior to November 30, 2018. If not extended, the Credit Facility will cease to revolve, and all outstanding advances will be repayable on May 31, 2019. As the Credit Facility now matures in less than one year, revolving bank debt has been presented as a current liability on the condensed interim consolidated statement of financial position as at June 30, 2018.

The Credit Facility is secured by general security agreements covering all of the Company's assets, with the exception of the TOU shares that have been pledged as security for the TOU share margin loan (note 7) and certain lands pledged to the gas over bitumen royalty financing counterparty. The Credit Facility also contains provisions which restrict the Company's ability to pay dividends on or repurchase its common shares.

The effective interest rate on the Credit Facility at June 30, 2018 was 4.6%. For the period ended June 30, 2018, if interest rates changed by 1% with all other variables held constant, the impact on annual interest expense and net loss would be $0.4 million (Q2 2017 – nil).

At June 30, 2018, the Credit Facility was not subject to any financial covenants and the Company was in compliance with all customary non-financial covenants.

9. TERM LOAN

On March 14, 2017, Perpetual entered into the term loan which included the issuance of 5.4 million warrants to purchase common shares (note 12).

	June 30, 2018	December 31, 2017
Balance, beginning of period	**$ 43,233**	$ –
Principal amount of term loan issued	**–**	45,000
Value allocated to warrants issued	**–**	(769)
Issue costs	**–**	(1,361)
Amortization of issue costs	**243**	363
Balance, end of period	**$ 43,476**	$ 43,233

The term loan matures on March 14, 2021 and bears interest at 8.1% per annum with semi-annual interest payments due June 30 and December 31 of each year. Amounts borrowed under the term loan that are repaid are not available for re-borrowing. The Company may not repay the term loan prior to the second anniversary thereof, except with payment of a make whole premium.

The term loan has a cross-default provision with the Credit Facility and contains substantially similar provisions and covenants as the Credit Facility (note 8). The term loan is secured by a general security agreement over all present and future property of the Company and its subsidiaries on a second priority basis, subordinate only to liens securing loans under the Credit Facility, TOU shares secured in favor of the TOU share margin loan lenders, and certain lands pledged to the gas over bitumen royalty financing counterparty.

At June 30, 2018, the term loan was not subject to any financial covenants and the Company was in compliance with all customary non-financial covenants.

10. SENIOR NOTES

	Maturity date	Interest rate	June 30, 2018 Principal	June 30, 2018 Carrying Amount	December 31, 2017 Principal	December 31, 2017 Carrying amount
2019 senior notes	July 23, 2019	8.75%	**14,572**	**14,506**	14,572	14,476
2022 senior notes	January 23, 2022	8.75%[1]	**17,918**	**17,266**	17,918	17,204
			$ 32,490	**$ 31,772**	$ 32,490	$ 31,680

(1) Annual interest rate through to January 23, 2018 was 9.75% and 8.75% thereafter.

The 2022 senior notes bear a fixed rate of 8.75% and have identical covenants and rights as the existing 2019 senior notes.

The senior notes are direct senior unsecured obligations of the Company, ranking pari passu with all other present and future unsecured and unsubordinated indebtedness of the Company. At any time prior to three years before the senior note maturity date, the Company can redeem up to 35 percent of the principal amount of the senior notes at a premium to face value. Within three years of maturity, the Company may redeem up to 100 percent of the senior notes at a premium to face value. Within one year of maturity, the Company may redeem up to 100 percent of the senior notes at the principal amount.

The senior notes have a cross-default provision with the Company's Credit Facility (note 8). In addition, the senior notes indenture contains restrictions on certain payments including dividends, retirement of subordinated debt and stock repurchases. The permitted amount of any restricted payment is limited to:

i) To the extent the Company's Consolidated Debt (defined as the sum of the period end balance of revolving bank debt, the term loan, TOU share margin loan and gas over bitumen royalty financing) to trailing twelve months income before interest, taxes, depletion and depreciation and non-cash items ("TTM EBITDA") is less than 3.0 to 1.0 (the "Consolidated Debt Ratio"), the sum of 50 percent of TTM EBITDA from January 1, 2011 to the end of the most recently completed fiscal quarter plus 100 percent of the fair market value of any equity contributions made to the Company during that period less the sum of all restricted payments during that period; and

ii) To the extent the Company's Consolidated Debt Ratio is greater than or equal to 3.0 to 1.0 pro forma for the proposed restricted payment, $50 million plus 100 percent of the fair market value of any equity contributions made to the Company.

At June 30, 2018 the senior notes are presented net of $0.7 million in issue costs which are amortized using a weighted average effective interest rate of 9.6%.

At June 30, 2018, other than the restricted payment covenants noted above, the senior notes were not subject to any financial covenants and the Company was in compliance with all customary non-financial covenants.

11. PROVISIONS

	June 30, 2018	December 31, 2017
Decommissioning obligations	**$ 36,589**	$ 37,081
Restructuring costs	**1,369**	1,604
Total provisions	**$ 37,958**	$ 38,685
Provisions – current	**$ 2,002**	$ 2,580
Provisions – non-current	**35,956**	36,105
	$ 37,958	$ 38,685

a) Decommissioning obligations

The following significant assumptions were used to estimate decommissioning obligations:

	June 30, 2018	December 31, 2017
Decommissioning obligations, beginning of period	**$ 37,081**	$ 33,620
Obligations incurred	**379**	1,554
Obligations settled	**(906)**	(2,336)
Obligations disposed	**(380)**	–
Accretion (note 15)	**415**	775
Change in risk free interest rate	**–**	2,339
Change in estimates	**–**	1,129
Decommissioning obligations, end of period	**$ 36,589**	$ 37,081
Decommissioning obligations – current	**$ 1,799**	$ 2,243
Decommissioning obligations – non-current	**34,790**	34,838
	$ 36,589	$ 37,081

Total future decommissioning obligations are estimated based on the Company's net ownership interest in all wells and facilities, estimated costs to reclaim and abandon these wells and facilities, and the estimated timing of the costs to be incurred in future periods.

The following significant assumptions were used to estimate the Company's decommissioning obligations:

	June 30, 2018	December 31, 2017
Undiscounted obligations	**$ 37,619**	$ 38,525
Average risk-free rate	**2.3%**	2.3%
Inflation rate	**2.0%**	2.0%
Expected timing of settling obligations	**1 to 25 years**	1 to 25 years

b) Restructuring costs

	Employee downsizing costs	Onerous office lease contract	Lease inducement	Total
Balance, December 31, 2016	$ 1,606	$ 2,548	$ –	$ 4,154
Transferred	–	(1,764)	1,764	–
Payments	(1,606)	(650)	(294)	(2,550)
Balance, December 31, 2017	–	134	1,470	1,604
Payments	–	(134)	(101)	(235)
Balance, June 30, 2018	**–**	**–**	**1,369**	**1,369**
Restructuring costs – current	–	–	203	203
Restructuring costs – non-current	–	–	1,166	1,166
Total	**$ –**	**$ –**	**$ 1,369**	**$ 1,369**

On February 1, 2017, Perpetual entered a new head office lease at its current location for a 98-month period expiring March 31, 2025. As consideration, the landlord agreed to release the Company from all remaining obligations under its existing lease with remaining term to March 31, 2018 and remaining payments of $1.8 million were deferred over the 98-month term of the new lease. This lease inducement is comprised of $1.8 million related to surplus office space which was recognized as an onerous contract provision in 2016. The lease inducement is being amortized on a straight-line basis over the 98-month term of the new head office lease.

12. SHARE CAPITAL

	June 30, 2018		December 31, 2017	
	Shares *(thousands)*	**Amount *($thousands)***	Shares *(thousands)*	Amount *($thousands)*
Balance, beginning of period	**59,263**	**$ 1,336,838**	53,421	$ 1,325,705
Issued pursuant to private placement (c)	**–**	**–**	5,143	8,968
Issued pursuant to share-based payment plans	**1,126**	**1,154**	887	1,728
Shares held in trust purchases (b)	**(339)**	**(250)**	(708)	(1,000)
Shares held in trust issued (b)	**319**	**514**	520	1,437
Balance, end of period	**60,369**	**$ 1,338,256**	59,263	$ 1,336,838

a) Authorized

Authorized capital consists of an unlimited number of common shares.

b) Shares held in trust

The Company has compensation agreements in place with employees whereby they may be entitled to receive shares of the Company purchased on the open market by a trustee (note 13d). Share capital is presented net of the number and cumulative purchase cost of shares held by the trustee that have not yet been issued to employees. As at June 30, 2018, 467,000 shares were held in trust (December 31, 2017 – 447,000).

c) Warrants and equity private placement

On March 14, 2017, the Company completed a private placement of 5.1 million equity units for gross proceeds of $9.0 million, of which $8.9 million has been allocated to share capital and $0.1 million to warrants. Each equity unit consisted of 1 common share and 0.21 warrants resulting in the issuance of 5,143,000 shares and 1,080,000 warrants. Included in the issuance were 1.6 million common shares and 0.4 million warrants issued to directors and officers of the Company or entities controlled by them, for proceeds of $2.9 million. In addition, 5.4 million warrants valued at $0.8 million were issued in connection with the term loan (note 9). Each warrant entitles the holder to acquire common shares on a one for one basis at an exercise price of $2.34 per share prior to March 14, 2020.

The following table summarizes the warrants and common shares issued:

	June 30, 2018			
	Shares (*thousands*)	**Amount (*$thousands*)**	**Warrants (*thousands*)**	**Amount (*$thousands*)**
Balance, December 31, 2016	–	$ –	–	$ –
Issued through term loan	–	–	5,400	769
Issued through private placement	5,143	8,968	1,080	154
Balance, December 31, 2017	5,143	$ 8,968	6,480	$ 923
Warrants exercised for common shares	–	–	–	–
Balance, June 30, 2018	**5,143**	**$ 8,968**	**6,480**	**$ 923**

If the volume weighted average price of Perpetual's common shares is greater than $2.34 per share for 60 consecutive calendar days, Perpetual has the option to require warrant holders to exercise all or any portion of the warrants at any time thereafter.

d) Per share information

	Three months ended June 30,		Six months ended June 30,	
	2018	2017	**2018**	2017
(*thousands, except per share amounts*)				
Net loss – basic	**$ (1,325)**	$ (7,219)	**$ (7,790)**	$ (21,391)
Effect of dilutive securities	**–**	–	**–**	–
Net loss – diluted	**$ (1,325)**	$ (7,219)	**$ (7,790)**	$ (21,391)
Weighted average shares				
Issued common shares	**60,416**	59,391	**60,090**	57,072
Effect of shares held in trust	**(540)**	(346)	**(478)**	(303)
Weighted average common shares outstanding – basic and diluted	**59,876**	59,045	**59,612**	56,769
Income (loss) per share – basic and diluted	**$ (0.02)**	$ (0.12)	**$ (0.13)**	$ (0.38)

In computing per share amounts for the three months ended June 30, 2018, 1.6 million potentially issuable common shares through the share-based compensation plans (Q2 2017 – 1.1 million) and warrants were excluded as the Corporation had a net loss. In computing per share amounts for the six months ended June 30, 2018, 1.4 million potentially issuable common shares through the share-based compensation plans (2017 – 1.3 million) and warrants were excluded as the Corporation had a net loss.

13. SHARE-BASED PAYMENTS

The components of share-based payments are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2018	2017	**2018**	2017
Share options	**220**	185	**459**	504
Restricted rights	**–**	–	**–**	73
Performance share rights	**170**	187	**422**	477
Compensation awards	**303**	613	**618**	1,463
Share-based payments	**693**	985	**1,499**	2,517

a) Share option plan

Perpetual's share option plan provides a long-term incentive to employees and directors associated with the Company's long-term performance. The Board of Directors administers the share option plan and determines participants, number of share options and terms of vesting. The exercise price of the share options granted shall not be less than the value of the weighted average trading price for the Company's common shares for the five trading days immediately preceding the date of grant. Share options granted vest evenly over 4 years, with expiry occurring 5 years after issuance.

The following tables summarize information about share options outstanding:

	June 30, 2018		December 31, 2017	
	Average exercise price ***($/share)***	**Share options** ***(thousands)***	Average exercise price *($/share)*	Share options *(thousands)*
Balance, beginning of period	**1.67**	**3,987**	1.71	2,068
Granted	**–**	**–**	1.71	2,015
Cancelled/forfeited	**1.66**	**(83)**	–	–
Expired	**–**	**–**	3.23	(96)
Balance, end of period	**1.67**	**3,904**	1.67	3,987

	Options outstanding			**Options exercisable**	
Range of exercise prices	**Number of share options (*thousands*)**	**Average contractual life (*years*)**	**Weighted average exercise price (*$/share*)**	**Number of share options (*thousands*)**	**Weighted average exercise price (*$/share*)**
$1.15 to $1.29	40	4.3	1.15	–	–
$1.30 to $1.57	1,765	2.9	1.42	882	1.42
$1.58 to $1.86	1,935	3.9	1.72	484	1.72
$1.87 to $5.97	164	1.1	4.01	124	4.67
Total	3,904	3.3	1.67	1,490	1.79

The Company used the Black Scholes pricing model to calculate the estimated fair value of the outstanding share options at the date of grant. During the six months ended June 30, 2018, the Company did not grant any additional share options.

b) Restricted rights plan

The Company has a restricted rights plan for certain officers, employees and consultants. Restricted rights granted under the restricted rights plan may be exercised during a period (the "Exercise Period") not exceeding five years from the date upon which the restricted rights were granted. The restricted rights typically vest on a graded basis over two years. At the expiration of the Exercise Period, any restricted rights which have not been exercised shall expire. Upon vesting, the plan participant is entitled to receive one common share for each right held at a cost of $0.01 per share.

The fair value of an award granted under the restricted rights plan is assessed on the grant date by factoring in the weighted average common share trading price for the five days preceding the grant date. This fair value is recognized as share-based payment expense over the vesting period with a corresponding increase to contributed surplus. Upon exercise of restricted rights, the value in contributed surplus pertaining to the exercise is recorded as shareholders capital. During the six months ended June 30, 2018, the Company did not grant any restricted rights to employees, other than to settle performance share rights and deferred shares.

Restricted rights granted upon the exercise of performance share units (note 13c) and deferred shares (note 13d) vest on the grant date and generally have a 30-day exercise period. No value is assigned to restricted rights issued pursuant to those plans as the value and expense has been recognized over the vesting period of the underlying performance share units and deferred shares.

The following table shows changes in the restricted rights outstanding under the restricted rights plan:

(*thousands*)	**June 30, 2018**	December 31, 2017
Balance, beginning of period	**–**	273
Granted to employees	**–**	44
Granted pursuant to exercise of performance share rights (c)	**1,008**	209
Granted pursuant to exercise of deferred shares (d)	**166**	369
Exercised for common shares	**(1,135)**	(895)
Balance, end of period	**39**	–

c) Performance share rights plan

The Company has a performance share rights plan for the executive management team. Performance rights granted under the performance share rights plan vest two years after the date upon which the performance rights were granted. The performance rights that vest and become redeemable are a multiple of the performance rights granted, dependent upon the achievement of certain performance metrics over the vesting period. Vested performance rights can be settled in cash or restricted rights (note 13b), at the discretion of the Board of Directors. Should participants of the performance share rights plan leave the organization other than through retirement or termination without cause prior to the vesting date, the performance share rights would be forfeited.

The fair value of an award granted under the performance share rights plan is determined at the date of grant by using the closing price of common shares multiplied by the estimated performance multiplier. As at June 30, 2018, performance multipliers of 1.0 have been assumed for those unvested awards granted in 2017 and 2018. Fluctuations in share-based payment expense may occur due to changes in estimates of performance outcomes. The amount of share-based payment expense is reduced by an estimated forfeiture rate of 5% (2017 – 5%) for outstanding awards. The estimated weighted average fair value of performance share rights granted during the six months ended June 30, 2018 was $0.64 per award (2017 – $1.68).

The following table shows changes in the performance share rights outstanding under the performance share rights plan:

(*thousands*)	**June 30, 2018**	December 31, 2017
Balance, beginning of period	**1,060**	1,048
Granted	**1,035**	430
Exercised in exchange for restricted rights[1]	**(630)**	(418)
Balance, end of period	**1,465**	1,060

[1] In 2018, performance share rights were exercised in exchange for restricted rights based on a performance multiplier of 1.6 (2017 – 0.5).

d) Deferred compensation awards

Deferred options

The Company has deferred option agreements in place with certain employees whereby they may be entitled to receive shares of the Company purchased on the open market by an independent trustee if they remain employees of the Company during such time and exercise their options. Deferred options generally vest evenly over 4 years, with expiry occurring 5 years after issuance. The shares purchased by the independent trustee are reported as shares held in trust (note 12b).

The following tables summarize information about the deferred options:

	June 30, 2018		December 31, 2017	
	Average exercise price (*$/share*)	**Deferred options (*thousands*)**	Average exercise price (*$/share*)	Deferred options (*thousands*)
Balance, beginning of period	**1.68**	**2,268**	1.69	1,072
Granted	**–**	**–**	1.72	1,380
Cancelled/forfeited	**1.66**	**(219)**	1.74	(120)
Expired	**2.52**	**(15)**	2.55	(64)
Balance, end of period	**1.68**	**2,034**	1.68	2,268

	Deferred options outstanding			**Deferred options exercisable**	
Range of exercise prices	**Number of deferred options (*thousands*)**	**Average contractual life (*years*)**	**Weighted average exercise price (*$/share*)**	**Number of deferred options (*thousands*)**	**Weighted average exercise price (*$/share*)**
$1.30 to $1.57	741	2.9	1.42	370	1.42
$1.58 to $1.86	1,224	3.9	1.72	306	1.72
$1.87 to $5.97	69	1.3	3.65	50	4.31
Total	2,034	3.5	1.68	726	1.74

The Company used the Black Scholes pricing model to calculate the estimated fair value of deferred options at the date of grant. During the six months ended June 30, 2018, the Company did not grant any additional deferred options.

Deferred shares

The Company also has deferred share agreements in place with directors and certain employees whereby, in the case of directors, upon retirement from the board of directors, or in the case of employees, over a period of two years if they remain employees of the Company during such time, may be entitled to receive at the discretion of the Board, cash, a grant of restricted rights (note 13b) or shares of the Company purchased on the open market by an independent trustee. The shares purchased by the independent trustee are reported as shares held in trust (note 12b).

The fair value of these agreements is assessed on the grant date by factoring in the weighted average common share trading price for the five days preceding the grant date and is reduced by an estimated forfeiture rate of 5% (2017 – 5%). The fair value is recognized as share-based payment expense over the vesting period with a corresponding increase to contributed surplus. Upon exercise of these agreements in exchange for restricted rights, the value in contributed surplus pertaining to the exercise is recorded as shareholders capital. Upon exercise of these agreements in exchange for shares held in trust, the shares held in trust account is reduced by the number of shares issued using the average cost base of purchased shares and offset to contributed surplus. During the six months ended June 30, 2018, the Company did not grant any additional deferred shares.

The following table shows changes to these awards:

(*thousands*)	**June 30, 2018**	December 31, 2017
Balance, beginning of period	**1,857**	2,197
Granted	**–**	684
Exercised in exchange for shares held in trust (note 12)	**(321)**	(520)
Exercised in exchange for restricted rights	**(166)**	(369)
Cancelled/forfeited	**(70)**	(135)
Balance, end of period	**1,300**	1,857

14. REVENUE

On January 1, 2018, the Company adopted IFRS 15 "Revenue from Contracts with Customers" as detailed in Note 2, using the cumulative effect method. For the six months ended June 30, 2018, there was no impact to oil and natural gas revenues as a result of adopting IFRS 15.

The Company sells its production pursuant to fixed or variable price contracts. The transaction price for variable priced contracts is based on the commodity price, adjusted for quality, location or other factors, whereby each component of the pricing formula can be either fixed or variable, depending on the contract terms. Under the contracts, the Company is required to deliver fixed or variable volumes of natural gas, crude oil or NGLs as may be applicable to the contract counterparty. Revenue is recognized when a unit of production is delivered to the contract counterparty. The amount of revenue recognized is based on the agreed transaction price, whereby any variability in revenue relates specifically to the Company's efforts to transfer production, and therefore the resulting revenue is allocated to the production delivered in the period during which the variability occurs. As a result, none of the variable revenue is considered constrained.

Natural gas, crude oil and NGLs are mostly sold under contracts of varying price and volume terms of up to one year. Revenues are typically collected on the 25th day of the month following production.

Natural gas volumes sold pursuant to the Company's market diversification contract are sold on a five-year contract expiring October 31, 2022, at fixed volume obligations of 35,000 MMBtu/d (40,000 MMBtu/d commencing April 1, 2018) and priced at daily index prices at each of the five market price points, less transportation costs from AECO to each market price point as follows:

Market/Pricing Point	**Daily sales volume (*MMBtu/d*)**
Chicago	12,200
Malin	10,800
Dawn	8,000
Michcon	5,200
Empress	3,800
Total natural gas sales volume obligation	**40,000**

The following table presents the Company's oil and natural gas sales disaggregated by revenue source:

	Three months ended June 30,		Six months ended June 30,	
	2018	2017	**2018**	2017
Oil and natural gas revenue				
Natural gas[(1)]	**11,254**	12,667	**26,705**	25,230
Oil	**5,063**	4,380	**8,553**	7,831
NGL	**4,457**	2,681	**8,856**	4,825
Total oil and natural gas revenue	**20,774**	19,728	**44,114**	37,886

(1) Includes revenues related to the market diversification contract and physical forward sales contracts which settled during the period.

Included in accounts receivable at June 30, 2018 is $6.3 million of accrued oil and natural gas sales related to June 2018 production (December 31, 2017 – $8.0 million related to December 2017 production).

15. FINANCE EXPENSE

The components of finance expense are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2018	2017	**2018**	2017
Cash interest expense and income				
Interest on revolving bank debt	**504**	204	**972**	384
Interest on TOU share margin loan	**162**	87	**310**	301
Interest on term loan	**907**	709	**1,818**	854
Interest on senior notes	**722**	921	**1,443**	2,279
Dividend income from TOU share investment	**(152)**	–	**(285)**	–
Total cash interest expense and income	**2,143**	1,921	**4,258**	3,818
Non-cash finance expense				
Amortization of debt issue costs	**267**	189	**517**	283
Accretion on decommissioning obligations (note 11)	**208**	195	**415**	386
Change in fair value of gas over bitumen royalty financing	**198**	33	**68**	(1,206)
Change in fair value of TOU share put option margin loans	**–**	504	**–**	1,425
Total non-cash finance expense	**673**	921	**1,000**	888
Finance expenses recognized in net loss	**2,816**	2,842	**5,258**	4,706

16. FINANCIAL RISK MANAGEMENT

Realized gains on commodity price derivatives recognized in net loss for the six months ended June 30, 2018 were $1.7 million (2017 – $0.9 million). The realized gains on commodity price derivatives for the six months ended June 30, 2018 did not include the early settlement of any contracts prior to their maturity.

Natural gas contracts

At June 30, 2018 the Company had entered into the following physical fixed price natural gas sales arrangements at AECO:

Term	Sold/bought	Volumes (*GJ/d*)	Average price (*$/GJ*)	Fair Value (*$ thousands*)
September 2018 – March 2019	Sold	5,000	1.40	(422)

At June 30, 2018 the Company had entered into the following financial fixed price natural gas sales arrangements at AECO:

Term	Sold/bought	Volumes (*GJ/d*)	Average price (*$/GJ*)	Fair Value (*$ thousands*)
July 2018 – October 2018	Sold	10,000	2.06	697
July 2018 – March 2019	Sold	10,000	1.41	(819)

At June 30, 2018 the Company had entered into the following physical basis differential contracts between AECO and NYMEX:

Term	Sold/bought	Volumes (*MMBtu/d*)	AECO-NYMEX differential (*US$/MMBtu*)	Fair Value (*$ thousands*)
July 2018 – October 2018	Sold	7,500	(1.80)	243
July 2018 – October 2018	Bought	(7,500)	(1.92)	(66)
August 2018	Bought	(25,000)	(1.86)	117
November 2018 – March 2019	Sold	7,500	(1.55)	(56)
January 2019 – December 2019	Sold	12,500	(1.54)	(380)
January 2020 – December 2020	Sold	12,500	(1.41)	(74)
January 2021 – December 2021	Sold	5,000	(1.15)	340

At June 30, 2018 the Company had entered into the following financial basis differential contracts between AECO and NYMEX:

Term	Sold/bought	Volumes (*MMBtu/d*)	AECO-NYMEX differential (*US$/MMBtu*)	Fair Value (*$ thousands*)
July 2018	Bought	(10,000)	(2.00)	67
July 2018 – October 2018	Sold	5,000	(1.87)	(106)
January 2019 – December 2019	Sold	7,500	(1.50)	(94)
January 2020 – December 2020	Sold	15,000	(1.41)	(38)

Natural gas contracts - sensitivity analysis

As at June 30, 2018, if future natural gas prices changed by $0.25 per GJ with all other variables held constant, the fair value of commodity price derivatives and after tax net loss for the period would change by $5.2 million. Fair value sensitivity was based on published forward AECO and NYMEX prices.

Oil contracts

At June 30, 2018, the Company had entered into the following fixed price oil contracts which settle in US$:

Term	Volumes at WTI (*bbls/d*)	Fixed price (*US$/bbl*)	Fair Value (*$ thousands*)
July 2018 – December 2018	250	63.74	(416)

At June 30, 2018, the Company had entered into the following costless collar oil sales arrangements which settle in US$:

Term	Volumes at WTI (*bbls/d*)	Floor price (*US$/bbl*)	Ceiling price (US*$bbl*)	Fair Value (*$ thousands*)
July 2018 – December 2018	250	50.00	58.40	(759)
July 2018 – December 2018	250	50.00	60.00	(674)

At June 30, 2018, the Company had entered into the following oil basis differential contracts between WTI and WCS trading:

Term	Volumes at WTI (*bbls/d*)	WTI-WCS differential (*US$/bbl*)	Fair Value (*$ thousands*)
July 2018	500	(19.75)	14

Oil contracts - sensitivity analysis

As at June 30, 2018, if future oil prices changed by $5.00 per boe with all other variables held constant, the fair value of commodity price derivatives and after tax net loss for the period would change by $0.8 million. Fair value sensitivity was based on published forward WTI and WCS prices.

Foreign exchange contracts

At June 30, 2018, the Company had entered into the following US$ forward sales arrangements to manage the Company's exposure to US$ denominated oil and NGL commodity sales:

Term	Notional (*US$/month*)	Strike rate (*US$/Cdn$*)	Fair Value (*$ thousands*)
July 2018 – October 2018	1,500,000	1.30	(56)

At June 30, 2018, the Company had entered into the following US$ forward sales arrangements to manage the Company's exposure to US$ denominated natural gas sales:

Term	Notional (*US$/month*)	Strike rate (*US$/Cdn$*)	Fair Value (*$ thousands*)
July 2018 – October 2018	2,000,000	1.30	(137)
November 2018 – March 2019	1,500,000	1.30	(77)
April 2019 – October 2019	1,000,000	1.32	92

Foreign exchange contracts - sensitivity analysis

As at June 30, 2018, if future exchange rates changed by $0.10 US$/Cdn$ with all other variables held constant, the fair value of foreign exchange derivatives and after tax net loss for the period would change by $2.0 million. Fair value sensitivity was based on published forward US$/Cdn$ rates.

The following table is a summary of the fair value of the Company's commodity price derivative contracts by type:

	June 30, 2018	December 31, 2017
Physical natural gas contracts	**$ 8**	$ 1,209
Financial natural gas contracts	**(228)**	1,506
Financial oil contracts	**(1,835)**	156
Financial foreign exchange contracts	**(178)**	–
Fixed portion of retained shallow gas marketing arrangements[1]	**(3,083)**	(929)
Non-fixed portion of retained shallow gas marketing arrangements	**–**	(6,736)
Fair value of derivatives	**$ (5,316)**	$ (4,794)
Derivative assets – current	**185**	1,585
Derivative assets – non-current	**132**	1,506
Derivative liabilities – current	**(5,489)**	(7,885)
Derivative liabilities – non-current	**(144)**	–
Fair value of derivatives	**$ (5,316)**	$ (4,794)

(1) The Company has fixed the cost of net retained shallow gas obligations at $3.1 million to be paid over the remaining July to August 2018 period.

The following table details the Company's changes in fair value of commodity price derivatives:

	Three months ended June 30,		Six months ended June 30,	
	2018	2017	**2018**	2017
Unrealized gain (loss) on financial natural gas contracts	**(2,168)**	59	**(1,734)**	(3,561)
Unrealized gain (loss) on physical natural gas contracts	**747**	882	**(1,201)**	1,489
Unrealized gain (loss) on financial oil contracts	**(1,179)**	188	**(1,991)**	1,425
Unrealized gain (loss) on forward foreign exchange contracts	**(178)**	–	**(178)**	5,022
Unrealized change in fair value of commodity price derivatives	**(2,778)**	1,129	**(5,104)**	4,375
Realized gain on financial natural gas contracts	**1,450**	354	**1,717**	6,253
Realized gain (loss) on financial oil contracts	**(357)**	(192)	**67**	(1,166)
Realized loss on forward foreign exchange contracts	**(45)**	–	**(45)**	(4,178)
Change in fair value of commodity price derivatives	**(1,730)**	1,291	**(3,365)**	5,284

Fair value of financial assets and liabilities

The Company's fair value measurements are classified as one of the following levels of the fair value hierarchy:

Level 1 – inputs represent unadjusted quoted prices in active markets for identical assets and liabilities. An active market is characterized by a high volume of transactions that provides pricing information on an ongoing basis.

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These valuations are based on inputs that can be observed or corroborated in the marketplace, such as market interest rates or forward prices for commodities.

Level 3 – inputs for the asset or liability are not based on observable market data.

The Company aims to maximize the use of observable inputs when preparing calculations of fair value. Classification of each measurement into the fair value hierarchy is based on the lowest level of input that is significant to the fair value calculation.

The fair value of cash and cash equivalents, accounts receivable, and accounts payable and accrued liabilities approximate their carrying amounts due to their short terms to maturity. Revolving bank debt and the TOU share margin loan bear interest at a floating market rate, and accordingly, the fair market value approximates the carrying amount.

The fair value of the gas over bitumen royalty financing is estimated by discounting future cash payments based on the forecasted Alberta gas reference price multiplied by the contracted deemed volume. This fair value measurement is classified as level 3 as significant unobservable inputs, including the discount rate and forecasted Alberta gas reference prices, are used in determination of the carrying amount. The discount rate of 12.2% was determined on inception of the agreement based on the characteristics of the instrument. The forecasted Alberta gas reference prices for the remaining term are based on AECO forward market pricing with adjustments for historical differences between the Alberta reference price and market prices.

The fair value of financial assets and liabilities, excluding working capital, is attributable to the following fair value hierarchy levels:

				Fair value		
As at June 30, 2018	**Gross**	**Netting[1]**	**Carrying Amount**	**Level 1**	**Level 2**	**Level 3**
Financial assets						
Fair value through profit and loss						
TOU share investment	**38,917**	**–**	**38,917**	**38,917**	**–**	**–**
Derivatives	**2,294**	**(1,977)**	**317**	**–**	**317**	**–**
Financial liabilities						
Financial liabilities at amortized cost						
TOU share margin loan	**15,699**	**–**	**15,699**	**15,714**	**–**	**–**
Revolving bank debt	**42,752**	**–**	**42,752**	**42,917**	**–**	**–**
Senior notes	**31,772**	**–**	**31,772**	**–**	**32,490**	**–**
Term loan	**43,476**	**–**	**43,476**	**–**	**–**	**45,000**
Fair value through profit and loss						
Derivatives	**7,610**	**(1,977)**	**5,633**	**–**	**5,633**	**–**
Gas over bitumen royalty financing	**2,108**	**–**	**2,108**	**–**	**–**	**2,108**

(1) Derivative assets and liabilities presented in the statement of financial position are shown net of offsetting assets or liabilities where the arrangement provides for the legal right, and intention for net settlement exists.
