

DAILY OPERATIONAL INFORMATION UPDATE

MANNVILLE PRODUCED WATER PIPELINE BREAK

August 15, 2018

This operational update will be provided daily until this incident is concluded.

Work accomplished in the past 24 hours

- Hydrovaced and removed soils to uncover pipeline to locate source of leak and begin failure analysis;
- Resumed hauling 182 m³ of contaminated soil from containment areas to landfill; and
- Continue to monitor water collecting in bell holes and sending for disposal as appropriate. No additional free fluids recovered.

Work forecast for next 24 hours

- Hydrovacating and digging to uncover pipeline to locate source of leak and begin failure analysis;
- Continue hauling of contaminated soil from containment areas to landfill;
- Continue to monitor water collecting in bell holes and sending for disposal as appropriate; and
- Submit Delineation, Remediation and Wildlife plan to the AER
