

DAILY OPERATIONAL INFORMATION UPDATE

MANNVILLE PRODUCED WATER PIPELINE BREAK

August 22, 2018

This operational update will be provided daily until this incident is concluded.

Work accomplished in the past 24 hours

- Continue to haul 523 m³ of contaminated soil from containment areas to landfill;
- Results of confirmatory sampling showed 24 locations passing and 2 with exceedances;
- Continuing to wait on 3rd party engineering firm analyzing the pipeline failure; and
- Preparing for replacement of failed pipe.

Work forecast for next 24 hours

- Scraping and hauling of 2 locations showing exceedances and follow on sampling;
- Continue hauling of contaminated soil from containment areas to landfill, expecting to near completion today;
- Preparing site and materials for pipeline replacement; and
- Prepare for backfilling of site with clean fill to begin as early as Thursday.
